

# Heart Failure Readmission

Dear ED Team:

Our case management staff & social workers require your assistance to identify the following:

**Patients who present for acute exacerbation/decompensation of their underlying heart failure syndrome, and who have been discharged from the hospital in the past 30 (thirty) days.**

- ✓ If you are taking care of one of these patients in the ED, all you have to do is contact the case manager/ social worker on duty in the ED
- ✓ You can also contact the HF Readmission Team Case Manager during regular business hours at **413-5365**

Thanks so much for helping improve our care of these patients!
