

Obstetrics/Gyn ED calls

We have two phones that the residents assigned to L&D and ED will be carrying 24/7. The resident assigned to cover L&D will carry 260-8352 and the resident covering ED will be carrying 260-8354. Instead of trying to find a call schedule, page the resident and have them find a phone to return the call, this direct call system will be much faster and direct. I suspect sometime in the foreseeable future, pagers will go the way of the dinosaurs.

R. Stan Williams, M.D.
Harry Prystowsky Professor of Reproductive Medicine
Chairman, Department of Obstetrics and Gynecology
